

The information provided in this questionnaire is not intended to be investment advice and does not constitute a recommendation to buy or sell securities. Please complete this questionnaire in reference to the assets you plan to invest in this account only.

1. This graph shows the potential range of gains or losses of a \$100,000 investment in each of seven hypothetical portfolios at the end of a 1-year period. The number to the right of each bar shows the best potential gain for that portfolio, while the number to the left of each bar shows the worst potential loss. Given that this is the only information that you have on these seven hypothetical portfolios, which one would you choose to invest in?

2. Inflation (rising prices for goods and services) can have a significant effect on your investments by decreasing their potential purchasing power over time. Aggressive investments have historically outpaced inflation over the long run, but have had more instances of short-term losses than more conservative investments. How do you feel about inflation and its impact on your investments?

- 4 You are satisfied with your investments keeping pace with inflation. Limiting the potential for short-term loss is your main goal, and you are willing to sacrifice the potential for higher returns.
- 8 You would like your investments to out pace inflation. You are willing to assume some potential for short-term loss in order to achieve that goal.
- 12 You prefer that your investments significantly outperform inflation. You are willing to assume a greater potential for short-term loss in order to achieve that goal.

3. Suppose that a substantial portion of your investment portfolio is invested in stocks. If the stock market were to experience a prolonged down market, losing 50 percent of its value over an 3 year period, what would you do (assuming your stocks behaved in a similar fashion)?

- 2 Sell all the stocks in your portfolio. You are afraid that the stock market is in a downturn and you cannot afford the decrease in value.
- 4 Sell half of the stocks in your portfolio. You think that the market may rebound, but you are not willing to leave all of your investment exposed to further loss.
- 8 Hold the stocks in your portfolio. You understand that your investment may be subject to short-term price swings and are comfortable "weathering the storm".
- 12 Buy more stocks for your portfolio to take advantage of their low price. You are comfortable with market fluctuations and assume that the stocks will regain their previous value or increase in value.

4. Once again, assume you have a substantial portion of your investment portfolio in stocks. If the stock market were to gradually decline at an average of two percent per month, eventually losing 24% of its value over a year, which of the following would you do?

- 2 Sell all the stocks in your portfolio. You are afraid that the stock market is in a downturn and you cannot afford the decrease in value.
- 4 Sell half of the stocks in your portfolio. You think that the market may rebound, but you are not willing to leave all of your investment exposed to further loss.
- 8 Hold the stocks in your portfolio. You understand that your investment may be subject to short-term price swings and are comfortable "weathering the storm".
- 12 Buy more stocks for your portfolio to take advantage of their low price. You are comfortable with market fluctuations and assume that the stocks will regain their previous value or increase in value.

5. Aggressive investments have historically provided higher returns while exhibiting greater short-term price fluctuations and potential for loss. How do you feel about fluctuations in the value of your portfolio?

- 2 You want to minimize the possibility of loss in the value of your portfolio. You understand that you may be sacrificing the potential for higher long-term returns by holding investments that reduce the potential for short-term loss and price fluctuation.
- 10 You can tolerate the risk of moderate losses in order to pursue potentially favorable returns.
- 18 You can tolerate the risk of large losses in your portfolio in pursuit of greater potential gains.

6. What is the investment time horizon on these investable assets?

- 4 Less than 3 years
- 12 3 - 5 years
- 16 6 - 9 years
- 24 10+ years

7. What is your current Annual Household Income?

- | | | |
|-------------------|---------------------|-------------------------|
| None | \$50,001 - 100,000 | \$500,001 - 1,000,000 |
| \$0 - 30,000 | \$100,001 - 250,000 | \$1,000,001 - 3,000,000 |
| \$30,001 - 50,000 | \$250,001 - 500,000 | More than \$3,000,001 |

8. What is your Approximate Net Worth?

- | | | | |
|------------------|-------------|------------|------------------|
| Less than \$250K | \$500K - 1M | \$3M - 5M | \$10M - 20M More |
| \$250 - 500K | \$1M - 3M | \$5M - 10M | than \$20M |

9. What are your Income Needs from Program Assets?

- | | | | |
|---------------|---------------|---------------|-----------------|
| None | \$30,000/Year | \$60,000/Year | \$90,000/Year |
| \$10,000/Year | \$40,000/Year | \$70,000/Year | \$100,000/Year |
| \$20,000/Year | \$50,000/Year | \$80,000/Year | >\$100,000/Year |

10. What is your State Tax Bracket?

- | | | | | | |
|----|----|----|----|-----|----------|
| 0% | 1% | 2% | 3% | 4% | 5% |
| 6% | 7% | 8% | 9% | 10% | Over 10% |

11. What is your Federal Tax Bracket?

- | | | | | | | | |
|----|-----|-----|-----|-----|-----|-----|-------|
| 0% | 10% | 15% | 25% | 28% | 33% | 35% | 39.6% |
|----|-----|-----|-----|-----|-----|-----|-------|

TOTAL RISK TOLERANCE SCORE:

- | | | |
|-------------------------------------|---------------------------------------|------------------------|
| 0-29: Conservative | 30-42: Moderately Conservative | 43-57: Moderate |
| 58-70: Moderately Aggressive | 71-100: Aggressive | |

I acknowledge that my Risk Tolerance Score of ____ points (above) denotes a(n) _____ investor. However, given other assets that I may hold outside of this account, I want to be invested based upon a Risk Tolerance Score of ____ points, denoting a(n) _____ investor.
